DISTILLERY

# Madrona Vodka

## Unfiltered Wheat Vodka

Madrona's Wheat Vodka is a product of the fermentation and distillation of 100% Canadian wheat. We sourced this spirit as the base for our gin distillations and discovered that the quality was exceptional and needed to be bottled on its own!

We blend full proof distillate with reverse-osmosis filtered Cascade mountain water to produce a delicious spirit with the smooth character typical of wheated vodkas.

Enjoy on the rocks or in your favorite cocktail!

*40% ABV, Distilled from Wheat*

Produced and bottled by Madrona Distilling, LLC in Redmond WA
